

## Your guide to adapted ACTIVE Citizenship Project

Even though we are all socially distancing during the ongoing Coronavirus situation, there are plenty of ways in which we can contribute to society and continue active citizenship projects.

We have put together this booklet to help inspire you and to guide you through our ACTIVE Citizenship process.

Use this guide to help you record your plans, actions and reflections. Answer the questions as you go so you have a record of the great things you have done and what you learn on the way.

The **ACTIVE Citizenship award** is organised into three stages...

1. **Get Planning!**
2. **Take Action!**
3. **Measure impact!**

The steps are there to guide you through the ACTIVE Citizenship process and support you in making a positive difference!

You will find two versions of the ACTIVE Citizenship@home booklet. A pdf to show you what it looks like and a **word version** that you can fill in as you do your project.

All the instructions you need are inside the booklet.

When you are finished submit your end or project news report via your teacher or direct to us on email at [info@teachingcitizenship.org.uk](mailto:info@teachingcitizenship.org.uk)

**Most of all have fun whilst being an ACTIVE Citizen!**
