

GROW THEIR STRENGTHS WITH NCS

NCS helps 15-17 year olds to grow their strengths and realise their potential, becoming exactly who they want to be. Choosing from experiences away from home, within their local community, or online, they'll boost their confidence, get involved in social action, make new friends from different backgrounds, and learn new skills to become world and work ready.

We also offer free Skills Booster teaching packs, designed for use in PSHE lessons, form-time activities, or after school enrichment time.
